Professional Summary

Software Developer with a strong foundation in full-stack web development and a passion for building scalable, user-friendly applications. Experienced in modern JavaScript frameworks, backend development, cloud tools, and CI/CD workflows. Proven ability to improve performance, usability, and developer efficiency across real-world projects.

Work Experience

Web Developer
Flash Components CC
Dec 2024 – Present

- Designed and developed responsive WordPress websites to resolve cross-device usability issues and improve user engagement.
- Maintained website stability through regular updates, content management, and technical maintenance.
- Created, uploaded, and scheduled daily website content using WordPress CMS workflows to improve content freshness and retention.
- Implemented on-page SEO best practices to improve keyword rankings and organic search visibility.
- Analyzed website performance using Google Analytics to inform SEO and optimization decisions.

Web Developer
QTZ Concrete
Aug 2024 – Dec 2024

- Built small-scale internal programs as part of a collaborative IT team to streamline daily operational workflows.
- Developed a custom tool for generating business flyers and letters, reducing repetitive manual design work for the marketing team.
- Improved WordPress website functionality and maintainability using PHP.

Intern Software Developer
IMQS Software
Jul 2023 – Jul 2024

- Participated in daily standups and sprint planning to support agile development workflows.
- Configured application data using Rapid Application Development (RAD) methodologies to accelerate client project setup.
- Designed and queried PostgreSQL databases to improve data performance and reliability.
- Completed TypeScript onboarding and followed company coding standards to maintain code quality and consistency.
- Built new features for internal developer tools to improve User Acceptance Testing (UAT) efficiency.
- Delivered full-stack features using Golang for backend services and Vue.js with TypeScript for frontend interfaces.

Assistant Lecturer
Life Choices Academy
Mar 2023 – Jun 2023

- Provided one-on-one and group tutoring to support learners in practical coding concepts.
- Assisted students with debugging, problem-solving, and real-world development best practices.
- Took on a team lead role during development projects to improve collaboration and project delivery.

Educational Background

Mancosa
Bcom in Information Technology and Management (NQF 7)
